Heated Safety Bomber Jackets

NANO Bomber

Key Features and Benefits:

- ANSI/ISEA 107-15 Class 3 Type P and R (class 1 for black style)
- 3 panel Nano Technology heating element
- 4 heat level settings (100°F/108°F/118°F/127°F)
- LED On/Off switch
- Includes USB port to connect to rechargeable power bank (power bank not included)
- 300 Denier Oxford material with polyurethane coating is 100% waterproof
- 120GSM insulated material with taffeta lining
- 100% waterproof and windproof
- Double-stitched with heat-sealed seams to prevent moisture from entering the garment
- Exclusive StarTech™ style reflective tape far exceeds ANSI/ISEA 107-15 for high visibility
- Full front waterproof zipper
- 2 lower slash pockets with waterproof zipper
- 1 lower inside zip pocket and lower chest zip pocket
- 2 radiophone clip straps
- 3 pc lined detachable hood
- Fleece lined collar
- Elastic rib wrists
- Machine washable

V1210160U-S/4XL	5408AU	Hi-Vis Yellow	S-4XL
V1210170U-S/4XL	5409AU	Hi-Vis Black	S-4XL

POWER BANK CAPACITY (mAh)	HOURS OF KEEPING WARM			
	SETTINGS			
	COMFORT 100°F	COZY 108°F	WARM 118°F	HOT 127°F
5,000	6	5	4	3
10,000	9	8	7	6
15,000	12	11	10	9
20,000	15	14	13	12
25,000	18	17	16	15

Temperature Control

There are 4 heat settings indicated by colored LEDs. Select the heat setting by pressing the control button. This jacket is compatible with various power banks. Refer to the chart below for heating capacity and how many hours of warmth this jacket will provide.

New 3rd Generation CNT Heating Elements

The heating elements are extremely thin (5 microns,) and made from Carbon Nanotube Technology. CNT elements are soft to the touch and flexible with no wires and is machine washable.
The heat sensor is strategically located to accurately measure temperature and prevent over or under heating.

*Based on 25,000 mAh Power Bank
