The Chill-Its 6487 Cooling Multi-Band offers head and face protection from the sun, dust and flying debris, as well as cooling relief. Plus, it features evaporative technology for immediate cooling, and UPF 50+ protection against the sun's harmful rays when working outside.

HOW TO ACTIVATE

Simply wet the cooling headwear to activate instant cooling relief that lasts for hours. When activated, this multi-band is lightweight and refreshing for even the hottest days of the year. Anti-Odor treatment keeps it fresh all day long. Hang dry or machine wash as needed.

HOW TO WEAR

This PPE safety headwear is incredibly versatile. The soft, stretchable knit material allows the multi-band to be worn in several different ways – wear as a cooling headband, neck gaiter, face mask or face covering, hat, dew rag and more. It can also be worn under a hard hat for moisture-wicking cooling when dry, and instant evaporative cooling relief when wet.
