Color(s):	Yellow
Size(s):	42" L x 30" W
Unit of Measure (UOM):	Each

AVAILABLE STYLES

Item #	Description	Size
V-APR0	Voltgard® 1000 Volt (Class 0) Insulating Bib Apron	Universal

PRODUCT CHARACTERISTICS

- Made from a high-strength reinforced Type II rubber material
- Includes two (2) Kevlar® bib straps and two (2) Kevlar® waist straps with nonmetallic buckles
- Adjustable straps can be buckled around the back and around the neck which gives wearers a comfortable and supportive fit
- All the straps are attached with reinforced stitching and Kevlar® thread
- Good for up to 1000 VAC
- Easy to identify yellow color is highly visible in the work area
- Designed for situations where there is a possibility of accidental contact with energized equipment or lines
- Meets ASTM F2320 standards
- Measures 42" from the top of the bib and has a full width of 30" to wrap around the front
- Not intended for purposeful contact with energized equipment

APPLICATIONS

Ideal for use where there is a possibility of accidental contact with energized equipment or lines.

QUALITY CONTROL

Voltgard® Aprons are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical performance to assure compliance with generally-accepted standards for first-quality aprons as well as the product specifications contained herein. Second-grade, irregular or defective aprons not meeting the agreed quality levels will be destroyed.
