### PRODUCT CHARACTERISTICS

- Enviro-Gard® Polyethylene Boot Covers provide an economical and inherent barrier to particles, micro-organisms and non-hazardous light liquid splash to help protect boots in dirty areas
- Polyethylene material works well in dusty and grimy environments, as well as in wet environments
- Embossed elastic trimming provides an adjustable and snug fit

## APPLICATIONS

Ideal for use in non-hazardous environments such as hospitals, clinics, laboratories, food processing facilities and painting applications.

## QUALITY CONTROL

Enviro-Gard Polyethylene Boot Covers are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical performance to ensure compliance with generally-accepted standards for first-quality polyethylene boot covers as well as the product specifications contained herein. Second-grade, irregular or defective polyethylene boot covers not meeting the agreed quality levels will be destroyed.

## VERSIONING
