PRODUCT CHARACTERISTICS

- Made from a pearl gray, standard grade shoulder split cowhide leather, these leather palm gloves provide soft and flexible yet strong protection that delivers abrasion resistance, heat resistance and flame resistance

205 HUEHL ROAD • NORTHBROOK, ILLINOIS 60062 U.S.A.
 Telephone: +1 847-291-1600 • Fax: +1 847-291-1610 • E-Mail: safety@saftegard.com
www.saftegard.com

- Woven cotton drill back in blue/black/red striped fabric allows hands to breathe
- Gunn cut pattern and wing thumb design fits naturally and eliminates seams in the working surface
- Full leather thumb, forefinger, fingertips, knuckle strap and pull patch provide added protection to the working areas that need it
- Style #1851DP features a double layer of leather reinforcing the palm and the thumb
- 2 ½" double-thick cotton drill/canvas safety cuff utilizes matching blue/black/red striped fabric and extends protection past the wrist
- 4 ½" gauntlet cuff and knit wrist cuff styles are also available to meet a variety of leather palm glove safety needs
- Safety cuff and gauntlet cuff styles include an elastic shirred back to provide a secure fit

APPLICATIONS

Ideal for use in agricultural, automotive, construction, industrial and material handling applications.

QUALITY CONTROL

Sampling and testing of incoming materials and packed finished gloves using MIL-STD-105E single sampling plan, normal inspection, AQL 4.0. Each glove is 100% visually inspected during the final ironing and packing process.
