PRODUCT CHARACTERISTICS

- Seamless machine knit cotton blended gloves are cool, comfortable and made from USDA-accepted materials
- Reinforced with precision-coated blue or white dots to provide a safe, secure grip on dry materials while enhancing abrasion resistance
- Double dot styles have coatings on both sides so that any two make a pair
- Natural white cotton blended material resists shrinkage when washed
- Continuous knit wrist color-coded elasticized finish reduces fraying and provides a visual aid in sizing for easy sorting and dispensing

APPLICATIONS

Ideal for use in general maintenance, packaging, inspection, material handling, assembly, manual dexterity, shipping and receiving and food handling and food processing applications.

QUALITY CONTROL

Comfo-Grip Gloves are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical and chemical performance to assure compliance with generally-accepted standards for first-quality gloves as well as the product specifications contained herein. Second-grade, irregular or defective gloves not meeting the agreed quality levels will be destroyed.
