

IvyX

Ivy X Pre-Contact Skin Solution

Ivy X Pre-Contact Skin Solution provides an invisible barrier helping to protect against poisonous plant oils (Urushiol) commonly found in Poison Ivy, Poison Oak and Poison Sumac. Ivy X Pre-Contact Skin Solution dries quickly, non greasy, sticky or clay-like which is found in other products. There is no wait time, apply Ivy X Pre-Contact Skin Solution and immediately start your outdoor task. Other products suggest you wait 15 to 20 minutes before entering the work area. Ivy X Pre-Contact Skin Solution is water and sweat resistant, is almost unnoticeable on the skin and washes off with soap and water. Our packaging (towelettes, bottles and sprays) allows for a compliant and affordable skin care program to help in poisonous plant protection.

How to use Ivy X Pre-Contact Skin Solution:

- Apply liberally to all exposed areas.
- Re-apply after washing or heavy activity.

IvyX Pre-Contact Skin Solution is available in various sizes, please visit www.coretexproducts.com for more information.
