## PRODUCT SPECIFICATION SHEET – STYLE #VLP-110S4C

### PRODUCT DESCRIPTION

VLP-110S4C

|                        |                                                             |
|------------------------|-------------------------------------------------------------|
| Part Number(s):        | VLP-110S4C                                                  |
| Product Name:          | Voltgard® Low-Voltage Leather Protector Gloves              |
| Product Category:      | Hand Protection – Electrical                                |
| Material(s):           | Grain Goatskin Leather; Nylon Strap and Non-Metallic Buckle |
| Pattern Design/Style:  | Gunn Cut                                                    |
| Thumb:                 | Gauntlet                                                    |
| Cuff:                  | Slip-On                                                     |
| Length:                | 10"                                                         |
| Thumb Strap:           | Yes                                                         |
| Color(s)               | Gold, Hi-Viz Orange Cuff                                    |
| Size(s):               | 7-12                                                        |
| Unit of Measure (UOM): | Pair                                                        |

### AVAILABLE SIZES

| Size:        | 7-7½         | 8-8½         | 9-9½         | 10-10½        | 11-11½        | 12            |
|--------------|--------------|--------------|--------------|---------------|---------------|---------------|
| Part Number: | VLP-110S4C/7 | VLP-110S4C/8 | VLP-110S4C/9 | VLP-110S4C/10 | VLP-110S4C/11 | VLP-110S4C/12 |

### PRODUCT CHARACTERISTICS

- Voltgard Low-Voltage Leather Protector Gloves are crafted by leather glove specialists to fit properly over all industry-standard rubber insulating gloves
- Grain goatskin leather is selected and processed to be soft, flexible and strong
- Gunn cut pattern provides comfort and dexterity
- Hi-Viz orange gauntlet cuff is easy to see and extends protection past the wrist
- Features a nylon strap adjustment and non-metallic buckle to comfortably secure the glove to the hand
- Dual-sized to fit whole and half sizes in rubber insulating gloves, i.e. - size 9 fits both 9 and 9 ½ rubber insulating gloves
- Leather protector gloves should always be worn over rubber insulating gloves to extend their life and provide protection to the gloves from cuts, abrasions and punctures
- Leather protector gloves themselves offer no protection against high or low voltage and should always be worn over rubber insulating gloves
- For use with Class 00 and 0 rubber insulating gloves
- Meets ASTM Standard F-696

## APPLICATIONS

Ideal for use by utility workers, power and communication linesman, electrical contractors, plant and facility maintenance technicians, auto manufacturing/repair service workers, high-voltage machine operators and electrical field service technicians.

## FUNCTIONAL PERFORMANCE

### LEATHER PROTECTORS FOR RUBBER INSULATING GLOVES MEET ASTM F-696 STANDARD

Warning – These leather protector gloves only provide mechanical protection for rubber insulating gloves. These leather gloves shall not be used for electrical protection. User shall specify correct length of the leather protector gloves to ensure compliance with ASTM F-496. Leather protector gloves shall be replaced when they have holes, tears or other defects.

## QUALITY CONTROL

Voltgard Leather Protectors are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical performance to ensure compliance with generally-accepted standards for first-quality leather protectors as well as the product specifications contained herein. Second-grade, irregular or defective leather protectors not meeting the agreed quality levels will be destroyed.
