PRODUCT CHARACTERISTICS

- Voltgard Sleeve Straps and Harnesses are made from the same super-soft rubber formulation as the Voltgard Rubber Insulating Blankets to provide a high degree of flexibility on the job
- Sleeve straps, harnesses and buttons are required to wear rubber insulating sleeves properly
- Rubber insulating sleeves are sold by the pair (not included), and all styles of sleeve straps, harnesses and buttons can be used with either one of the sleeves in the pair
- Select styles include (4) 2-piece, screw type attachment buttons needed to attach to the rubber insulating sleeves
- Voltgard Sleeve Buttons are also sold separately in a package of 2 pair (4 buttons)

APPLICATIONS

Required for use with rubber insulating sleeves by electrical utility workers, power and communication linemen, electrical contractors, electrical field service technicians, telecommunications companies, cable television operators, auto manufacturing/repair service workers, municipalities, first responders, energized machine operators and industrial plant and facility maintenance technicians or anywhere there is exposure to electrical shock hazards.

QUALITY CONTROL

Voltgard Sleeve Straps, Harnesses and Buttons are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical performance to ensure compliance with generally-accepted standards for first-quality sleeve straps, harnesses and buttons as well as the product specifications contained herein. Second-grade, irregular or defective sleeve straps, harnesses and buttons not meeting the agreed quality levels will be destroyed.
