PRODUCT SPECIFICATION SHEET – VOLTGARD® INSULATING ROLL BLANKETS

PRODUCT DESCRIPTION

VRLB0-30

Part Number:	See Below
Product Name:	Voltgard® Insulating Roll Blankets
Product Category:	Electrical Safety – Rubber Insulating Blankets & Matting
Material(s):	High-Strength Reinforced Type II Rubber
Classes:	See Below
Color(s):	Brown and Yellow
Size(s):	See Below
Unit of Measure (UOM):	Each

AVAILABLE STYLES

Item #	Description	Color	Size
VRLB00-6	Voltgard® Insulating Roll Blankets, Class 00, 500v	Brown	3' x 6'
VRLB00-30	Voltgard® Insulating Roll Blankets, Class 00, 500v	Brown	3' x 30' Roll
VRLB0-6	Voltgard® Insulating Roll Blankets, Class 0, 1,000v	Yellow	3' x 6'
VRLB0-30	Voltgard® Insulating Roll Blankets, Class 0, 1,000v	Yellow	3' x 30' Roll

PRODUCT CHARACTERISTICS

- Voltgard® Insulating Roll Blankets, made from a high-strength reinforced Type II rubber, allow workers to custom-cut blankets to fit each application at the job site
- This minimizes the number of different low-voltage blanket sizes and shapes that would be needed from job to job
- Roll blankets are easy to cut and stay flexible, even in temperatures that get down to -40° F
- Highly puncture and tear resistant, each blanket is also flame, oil, and ozone resistant
- Type II Rubber Roll Blankets meet ASTM F2320 standards

APPLICATIONS

Ideal for use by electrical utility workers, power and communication linemen, electrical contractors, electrical field service technicians, telecommunications companies, cable television operators, auto manufacturing/repair service workers, municipalities, first responders, energized machine operators and industrial plant and facility maintenance technicians or anywhere protection is needed from accidental and incidental contact with energized lines, energized equipment and irregularly-shaped hardware.

QUALITY CONTROL

Voltgard® Insulating Roll Blankets are 100% inspected for visual defects, and statistically-valid random samples of all production are tested for physical performance to ensure compliance with generally-accepted standards for first-quality insulating roll blankets as well as the product specifications contained herein. Second-grade, irregular or defective insulating roll blankets not meeting the agreed quality levels will be destroyed.
